

**LRS** **BLACK ANGUS PUREBRED**  
**B/R NEW FRONTIER 095**  
**1352804**

Jan. 31, 2000 BW: 90 lbs. 205: 721 lbs. 365: 1353 lbs.

We have used 095 on heifers since 2003. He calves easy, and his calves really excel on the grass, often being in the top of their group, despite being out of first calf heifers. Once they are in the bull pens, they continue on that growth pattern. 095 is Accelerated Genetics all-time sales leader with 15,000 progeny in 1,800 herds. He is a Pathfinder sire with the American Angus Assoc. 095 ranks in the top 10% for docility and the top 5% for heifer pregnancy rates.

**S A V FINAL ANSWER 0035**  
**IMP 035K 1061938**

Feb. 22, 2000 BW: 69 lbs. 205: 843 lbs. 365: 1360 lbs.

We were looking for a calving ease sire that had a lot of growth potential and we found him in Final Answer. He is a proven calving ease sire and his birth to weaning to yearling number is huge. He offers exceptional performance, maternal strength and carcass quality. The calves in the sale today show tremendous body depth, muscle shape and have the best fleshing ability that we have seen. They are rugged bulls that will keep their shape after being out with your cows.
